FALL NEWSLETTER 2018

## PROJECT CORNER

As the summer comes to an end, there are some quite extraordinary late season nature flowers in bloom. We are working on a project in Hopewell where there is a native preserve nearby. It is a remnant hill prairie where the flowers have been more than stunning. Here are pictures of Rough Blazingstar (*Liatris aspera*) and a Giant Swallowtail. Quite beautiful.

## A NOTE FROM DALE'S DESK

On September 14, twenty high school guidance counselors from the Tazewell and Peoria county schools came to tour our facility. This tour was organized by the Tazewell County Area Education for Employment organization located in Pekin. Dale and the Design Team showed them the office area as well as the shade house and plant areas outside. They also informed them about various careers in horticulture.

On September 27, Kim and Dale attended an award reception, for "Keep Peoria Beautiful", where one of our customers received an Iris Award. The Iris Award is given to a neighborhood association or individual homeowner for outstanding landscaping and beautification of their home and garden.

## IMPORTANT PLEASE READ!

We are now corresponding with our customers via email. This includes our seasonal newsletter, plant info, and gardening/maintenance tips. If you are interested in switching to email, please contact us at [katy@stuberlanddesign.com](mailto:katy@stuberlanddesign.com) and we will add you to our list.

## VARIOUS TOURS AND PLANT SHOWS

- On July 27, Kim and Althea attended the Ball seed customer field day. Many trial flower beds are set up for people to see new perennials and annuals. Shows like this help us stay up on recent trends for our customers.
- On September 20, Dale and Sam attended the Illinois Green Industry Association (IGIA) Growers' tour in Chicago. They were able to visit Hinsdale Nursery & Pizzo Native Plant Nursery. Attending this tour gives us the opportunity to learn more about the unique growing operations producing quality nursery stock in our area.

## WINTER CONTAINERS

Winter containers will be installed the week of November 12. If you are interested or have any questions, please contact Althea at 925-5277 or [althea@stuberlanddesign.com](mailto:althea@stuberlanddesign.com).
